

MATHAN RAJ KRISHNAN

Lead Consultant

Dharmapuri, TN 636803 | 889-246-1021 | mathanganesh@live.com

Professional Summary

Experienced Technical Lead with over 14 years in web backend development, with a strong focus on understanding business needs and aligning technical solutions accordingly. Eager to continuously grow my knowledge and pursue a successful, long-term career.

Expertise and accomplished

- **Backend** : Prestashop ecommerce, Laravel, Drupal CMS development, DevOps essential for hosting website are the core strengths. RDMS MySQL and Mssql both well familiarized. Front end: React js, HTML and CSS good exposure.
- **PrestaShop Expertise**: Extensive experience working with PrestaShop project, have developed core module related to order management system, SSO login that is very generic for entire decathlon but at the same time as per each country standard adaption. Batch processing, Kafka, Coupon system. Played vital role in architect design migrating from PrestaShop framework to microservice architecture of all the services.
- **Drupal & Laravel**: Hitbullseye.com cms, that consists of more than lakhs of articles across the sub domain is developed and maintained. Implementation of AWS S3 for media and cloudfront for the front end to optimize the speed of the site.
- **API Development**: Coupon microservice using Symfony framework developed the rest endpoints, every logical evaluation is managed under this service with the response time of less than 200ms.
- **High-Traffic Systems**: Decathlon.in a well known online ecommerce platform for sports, was part of the team where we developed the speed of site to scale up to 10k concurrent users and handling more than 3000 orders per day.
- **Monitoring & Analytics**: Set up full-stack observability using New Relic, Datadog, and Zabbix. Built and customized Matomo-based analytics to ensure full data ownership and compliance.
- **ETL & Product Management**: Built ETL pipelines and a custom Product Information Management (PIM) system to manage large-scale product data, especially for ecommerce operations like Decathlon.
- **Infrastructure & DevOps**: I've designed and maintained scalable, secure infrastructure for livestreaming, APIs, and analytics platforms — focusing on uptime, performance, and cost-efficiency. Built and managed CI/CD pipelines using AWS ECS and private VPCs.
- **Cloud & Serverless**: Strong hands-on experience with AWS services like EC2, ECS, S3, Lambda, and RDS. I've built and deployed serverless APIs with a focus on scalability and low

operational overhead.

- **Streaming Platforms:** Led a major migration from Vimeo to Dolby.io to enable ultra-low latency livestreaming. Also moved over 100 TB of video to a custom JWPlayer + CDN solution to reduce dependency and control costs.
- **Teamwork & Problem Solving:** I'm good in logical skill and understanding the problem and solve it. Several challenges have been resolved and addressed at the given point of time. Good at doing RND and find the right solutions as per the business needs. Handled team of 8 people with designers and backend developers, mentoring them as well as learn from them I keep the team up to the mark as much as possible.

Work History

Lead Technical Consultant

09/2020 to Current

International Markets Live Inc. – Remote

- Architected and migrated a 100TB video platform from Vimeo to a self-hosted Dolby.io + JWPlayer stack with ultra-low latency.
- Led DevOps for live-streaming and user platforms using ECS, Node.js, PHP, and MongoDB.
- Automated CI/CD pipelines and enforced infrastructure as code.
- Built custom analytics and tracking across user journeys using Matomo.
- Delivered scalable serverless APIs and managed data flow with reliability-first principles.

Tech Lead/Senior IT Consultant

06/2017 to 08/2020

Decathlon Sports Private Limited – Bangalore, India

- Led development and global rollout of PrestaShop-based E-commerce across 30+ countries.
- Designed ETL pipelines and a custom Product Information Management (PIM) platform.
- Defined scalable architecture and operational procedures, aligning tech with business goals.
- Developed and managed coupon microservice with backend on prestashop and symfony for API endpoints.

Technical Lead

06/2011 to 06/2017

Cybrain Software Solutions Pvt. Ltd – Bangalore

- Managed 50+ web projects including Hitbullseye.com.
- Delivered CMS, e-commerce, and blog platforms using PrestaShop, WordPress, and custom stacks.
- Mentored junior developers and handled AWS deployments and configurations.
